

EContra One-Step[®]
(Levonorgestrel) Tablet, 1.5 mg

Offer Them A Backup Option

EContra One-Step[®]
is the #1 sold emergency
contraceptive in U.S. clinics¹

Brought to you by Afaxys Pharma,
a leading provider of oral and emergency
contraceptives in U.S. clinics²

afaxys[®]
pharma

Empower Them in One Simple Step

Unprotected sex and contraceptive failures can happen – that's why there's EContra One-Step® (levonorgestrel 1.5 mg tablet)

An over-the-counter emergency contraceptive³

Convenient, **single-tablet** dosing⁴

A **low-cost** option for your patients

Comparable to Plan B One-Step®

If your patients wish to use hormonal contraception after taking EContra One-Step, they can do so immediately without any reduction in efficacy⁵

EContra One-Step works for up to 72 hours (3 days) after unprotected sex⁴

EContra One-Step should be taken as soon as possible to reduce the chance of pregnancy. The sooner EContra One-Step is taken, the better it works.⁴

EContra One-Step should not be used as a regular form of contraception.⁴

EContra One-Step does not protect against HIV/AIDS or other sexually transmitted diseases (STDs).⁴

Plan B One-Step® is a registered trademark of Foundation Consumer Healthcare.

EContra One-Step®
(Levonorgestrel) Tablet, 1.5 mg

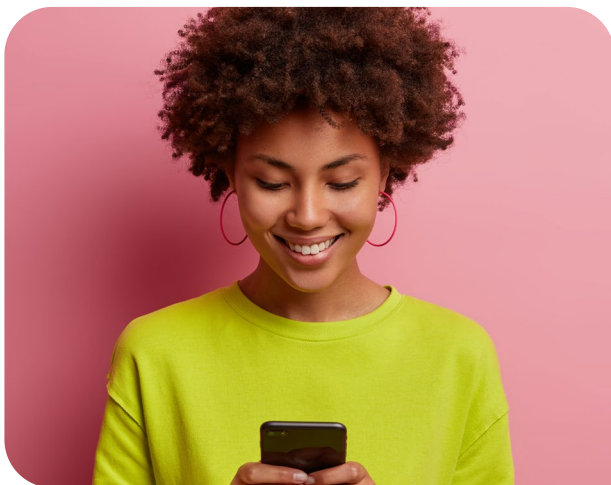

EContra One-Step[®] Is the #1 Sold Emergency Contraceptive in U.S. Clinics¹

Let your patients know that they can keep EContra One-Step on hand to feel prepared. Having an emergency contraceptive on hand encourages earlier use, and earlier use makes it more effective.⁶

If your patient is inquiring about EContra One-Step, it may be the right time to have a conversation about long-term contraceptive and reproductive health.

About 7 out of 8 women who would have gotten pregnant will not become pregnant.⁴

Scan to view downloadable patient material in English and Spanish.
